SUMMARY

Mobile engineer with **8+ years (6.5+ in Flutter)** shipping consumer apps at massive scale. Currently **SDE III — Mobile** on **STAGE OTT (44M+ downloads, Shark Tank India)**. Built and shipped the **Flingo** dating app solo (**900K+ downloads**). Pairs deep Flutter/Android craft with AI-driven engineering — in-house Delta OTA, autonomous build-test-PR agent loops, and an org-wide AI playbook.

EXPERIENCE

SDE III — Mobile Nov 2023 – Present
STAGE OTT · Noida, India

- Own product features end-to-end for a **44M+ download** OTT app — research, planning, development and delivery.
- Built an in-house **Delta OTA** system to ship Flutter updates over-the-air, bypassing app-store review cycles.
- Authored an org-wide **AI engineering playbook** (Claude & Codex, **/update** auto-tooling, custom **/stage-designer** skill) and **Loop Engineering** agents that build, self-test and raise PRs autonomously.
- Rewrote the video player, lifting content consumption **+20%**; migrated the TV app to **Kotlin Compose**, growing WAU **100 → 4,000**.
- Automated releases with **Tramline (90% faster)** and CI testing via Patrol, GitHub CI, LambdaTest & BrowserStack.

Senior Software Engineer (Mobile) Apr 2022 – Jun 2023
STAGE OTT · Remote

- Led research, planning and development of features requested by the product team, and managed the project.
- Implemented Facebook Ads deep links that reduced customer acquisition cost (**CAC**) for the STAGE app.

Senior Software Engineer Aug 2018 – Mar 2022
ParkingRhino · Bangalore, India

- Built B2B parking-management software (Android) on POS hardware, digitizing parking spaces pan-India.
- Developed the PolyQ Flutter app for trainers & students; integrated **8+ POS printer SDKs**.
