Senior Mobile Engineer with **7+ years** building production mobile apps — **6+ years in Flutter** and **4 years** as a native Android (Java) developer. Currently engineering **STAGE OTT** (30M+ downloads, as seen on Shark Tank India). Single-handedly built the **Flingo** dating app (870K+ downloads). I pair deep mobile craft with AI-driven engineering — Delta OTA delivery, autonomous build-test-PR loops, and org-wide AI tooling.

7+ YEARS MOBILE	30M+ STAGE DOWNLOADS	870K+ FLINGO DOWNLOADS	100+ APIS SHIPPED	50+ A/B TESTS
---------------------------	--------------------------------	----------------------------------	-----------------------------	-------------------------

SIGNATURE ENGINEERING

- **Delta OTA for STAGE** — in-house over-the-air patching, shipping Flutter updates without store review cycles.
- **Loop Engineering** — builder-checker-looper agents that build features, fix bugs, self-test, and raise PRs autonomously.
- **Org-wide AI Playbook** — gstack, Claude & Codex setup, auto-updating tooling via /update, custom /stage-designer skill.
- **SEO & Growth** — Flingo landing funnel driving 13K+ clicks at a 30% app-install rate.

EXPERIENCE

Senior Software Engineer (Mobile) — STAGE OTT Nov 2023 – Present · Noida

- Research, plan and build product features for a **30M+ download** OTT platform; rewrote the video player for a **+20% content-consumption** lift.
- Migrated Flutter integration tests to **Patrol** for reliable end-to-end coverage.
- Integrated GitHub CI with **LambdaTest** & **BrowserStack** to automate the first release cycle and device-farm testing.

Senior Software Engineer (Mobile) — STAGE OTT Apr 2022 – Jun 2023 · Remote

- Migrated the STAGE TV app to **Kotlin Compose**, growing weekly active users from **100 → 4,000**.
- Integrated **Tramline** to automate the release pipeline — **90% faster releases**.
- Implemented Facebook Ads deferred deep links that reduced customer acquisition cost.

Senior Software Engineer — ParkingRhino Aug 2018 – Mar 2022 · Bangalore

- Built B2B parking-management software (Android) running on POS hardware, digitizing parking spaces pan-India.
- Developed the PolyQ Flutter app for trainers & students; integrated **8+ POS printer SDKs**.
- Owned research, planning, delivery and client satisfaction across multiple products.

SELECTED PROJECTS

STAGE 30M+ OTT for Haryanvi/Rajasthani dialects. Stripe & RazorPay recurring payments, deep links, freemium, intl. login, 100+ APIs. <i>Flutter · Kotlin · Compose</i>	Parkin / Parkola QR-based parking booking with in-app wallet payments. <i>Flutter · Dart</i>
Flingo 870K+ Dating app to find people nearby — built, published & maintained solo. <i>Android · Java · Firebase</i>	PolyQ Online training-course booking app for trainers & students. <i>Flutter · Dart</i>
FlipFiction Romantic fiction, short stories & thrillers reader. <i>Flutter · Dart</i>	ParkingRhino B2B POS-machine parking-management app, incl. Kuwait white-label. <i>Java · Android</i>

TECHNICAL SKILLS

Languages & Frameworks: Flutter, Dart, Kotlin, Java, Jetpack Compose, XML
Architecture & State: MVVM, BLoC, Provider, GetX, Hilt
Backend & Data: REST API, Dio, Http, JWT Auth, SQLite, Sqflite, Room
Firestore: Auth, Firestore, FCM, Crashlytics, Deep Links, Remote Config, A/B Testing
DevOps & Testing: Git, Bitbucket, GitHub CI, Tramline, Patrol, BrowserStack, LambdaTest
Payments & Analytics: Stripe, Razorpay, JusPay, Paytm, PhonePe · Amplitude, AppsFlyer, CleverTap, RudderStack, Adjust

EDUCATION

B.E., Computer Science & Engineering
Assam Engineering College, Guwahati · 2014–2018

AWARDS & LANGUAGES

AFMI Silver Medals — 2nd among Muslims, Assam (HSLC 2011, HS 2013)
Languages: English, Hindi (Professional) · Assamese, Bengali (Native)
